

**Preparation Program Code : 09341**

**Program Length : 1 semester**

One semester begins in September

**UNB Degree Program Code : 0706C**

**Credential : Degree**

**Campus : North**

**Program Length : 2 Years**

Six semesters, beginning in January

## Introduction

Humber is proud of its collaboration with the University of New Brunswick. Both institutions have long-standing traditions of excellence in nursing education in Canada. As a UNB-Humber Nursing student, you will receive all of your university undergraduate degree education at Humber in Toronto. Upon successful completion, you will receive a Bachelor of Nursing degree from the University of New Brunswick.

## Highlights

Our curriculum focuses on the nurse's role in Community / public health, primary health-care and acute-care settings. The program includes many hours (1400) of clinical/field practice where you will have the opportunity to put your nursing skills and knowledge to work in a supervised setting. Small class sizes of 35 - 40 students means you will get both individual and group learning opportunities. Your clinical experiences will be diverse and cover a broad range of settings including community agencies, schools, long-term care facilities and hospitals.

## Our Facilities

Humber has well-equipped labs, including four simulated nursing labs and bioscience and anatomy labs. Our Clinical Simulation Learning Centre is one of the key differentiators of a nursing education at Humber. The simulation lab improves student learning by providing a variety of clinical situations that might not arise when you are in the clinical practice setting. You'll have the opportunity to rehearse skills before trying them on real patients, thus improving both your confidence level and patient safety. The Clinical Simulation Learning Centre includes:

- Four independent learning labs each with eight to ten beds
- The capacity to simulate a general inpatient unit
- A two-bed critical care unit for infants and adults
- Video and audio recording for evaluation and learning.
- Two simulation suites where clinical groups comprised of eight students each are able to play different roles, from nurse to family member to respiratory tech. The goal is to gain a better understanding of each different perspective in order to enhance patient care

## Admission Requirements

**To be eligible for admission, you must possess the following:**

- A completed three- or four-year university degree with a 3.0 or 74 per cent grade point average (GPA) or higher. For applicants who have completed more than 60 credit hours, the admission average will be calculated on the most recent 60 credit hours of course work.
- Applicants must also present a minimum mark of 70 per cent in the following courses:
  - Grade 12 English (ENG4U or equivalent)
  - Grade 12 Chemistry (SCH4U or equivalent)
  - Biology (SBI4U or equivalent)
  - any Grade 12 U-level Mathematics (or equivalent).
- Applicants who have not completed a three- or four-year university degree, but who possess 60 university credit hours with a 3.0 or 74 per cent GPA or higher, may also be considered for admission.
- The grades for all courses taken within an academic term will be included in this calculation, even if this results in exceeding the 60 credit hours requirement.

**Document Evaluation:** All international credentials must be evaluated by an approved credential service, and must provide a course-by-course evaluation.

- All international postsecondary documents must be evaluated by *World Education Services (WES) Canada* on a course-by-course basis. The University of New Brunswick requires the ICAP evaluation package.
- All international high school credentials must be evaluated by *ICAS Canada* on a course-by-course basis.

**English Language Proficiency:** All applicants whose first language is not English must meet Humber's English Language Proficiency Policy.

**Selection Process:** Admission selection is based on the academic criteria indicated. Meeting minimum eligibility requirements does not guarantee admission.

**Full Disclosure:** The Bachelor of Nursing program is a full disclosure program. Applicants must disclose and provide academic transcripts for all course work completed at the postsecondary (college or university) level. Disclosure and documentation is required for all courses, including those not leading to a completed credential, where credit was not granted, and where academic work was not related to the field of nursing. Failure to disclose previous postsecondary course work is considered an academic offence and can result in withdrawal from the program.

# List of Courses

## Preparatory Semester -September

Course Code	Course Name
ANAT 102	<u>Human Anatomy</u>
MICR 300	<u>Microbiology</u>
NSTA 116	<u>Statistics for Students of Biological Science</u>
PATH 200	<u>Pathophysiology 1</u>
PSYC 100	<u>Psychology: Introduction</u>

## Year 1 – Term 1 – January

Course Code	Course Name
NURS 1121	<u>Introduction to Nursing and Wellness</u>
NURS 1131	<u>ASP Helping Relationships</u>
NURS 1135	<u>Enhancing Well-Being In Situations of Chronicity</u>
NURS 1136	<u>Clinical Practicum: Wellness and Chronicity</u>

## Year 1 – Term 2 – May

Course Code	Course Name
NURS 2133	<u>Pharmacotherapeutics</u>
NURS 2171	<u>Young Families: Enhancing their Health</u>
NURS 2174	<u>ASP Concentrated Clinical Practice</u>

## Year 2 – Term 1 – September

Course Code	Course Name
NURS 3042	<u>ASP Health Assessment</u>
NURS 3065	<u>Community and Population Health Nursing</u>
NURS 3066	<u>Clinical Practicum: Community and Population Health Nursing</u>
NURS 3092	<u>Nursing Research</u>

## Year 2 – Term 2 – January

Course Code	Course Name
BIOL 2513	<u>Pathophysiology</u>
NURS 3072	<u>Acute Health Challenges</u>
NURS 3073	<u>Clinical Practicum: Acute Health Challenges</u>
NURS 3082	<u>Theoretical Foundations of Nursing</u>

## Year 3 – Term 1 - May

Course Code	Course Name
NURS 4113	<u>Families Within Populations</u>
NURS 4121	<u>Nursing in Complex Situations</u>
NURS 4123	<u>Clinical Practicum: Nursing Families in Complex Situations</u>
NURS 4185	<u>Trends and Leadership in Nursing</u>

## Year 3 – Term 2- September

Course Code	Course Name
NURS 4127	<u>Integrated Nursing: Practical Elective</u>

In 2013, the Humber College ITAL, School of Health Sciences, educational unit (five years) and its collaborative nursing education programs (seven years) delivered in conjunction with the University of New Brunswick were granted accreditation by the Canadian Association of Schools of Nursing (CASN).

CASN accreditation is a combination of institutional and specialized accreditation in which a school's educational unit and nursing education programs are assessed against peer-established standards of excellence.

This degree program is also endorsed by the College of Nurses of Ontario and approved by the New Brunswick Nurses Association, and the Ontario Provincial Education Quality Assessment Board (PEQAB).
